

Dear Mr. Greenwood,

I would like to express much appreciation to your company for the professional service and installation of alarms and CCTV camera at my HOME in Paphos.

From our initial meeting, whereby you offered advice to ensure security measures at my home would allow for utmost protection from burglaries , to the installation, was efficient and completed within just a couple of days. I was particularly pleased with the tidiness of the work which did not disrupt my family during the process.

I will be commissioning your company to Install CCTV within my shops, very soon.

I will have pleasure in recommending your full professional service and product range, and am impressed at the Public Awareness Campaign you are offering with free on-site Security Surveys for businesses who are exposed to the rapid increase in crime in Cyprus. I will also communicate the fact that you are one of few fully licensed operators in Cyprus, approved by the Government and Police Departments.

Please feel at liberty to refer other business owners to me, should they wish for a personal inspection at my premises.

Thank you very much.

Regards
